PROTOCOL REVIEW

Family Planning delegate agencies are responsible to keep the protocol manual current, and must review/sign the protocol manual annually. All program staff utilizing the protocol manual must review/sign annually. (These protocols are intended for the advanced practitioner in the North Dakota Family Planning Program. Other medical/nursing staff in the clinical setting may utilize the information as it applies to their title, job description and role; however, it must be under the direction and supervision of the advanced practitioner or medical director.)

The protocols contained in this manual have been reviewed by the persons listed below. Please keep this form in the front of the manual.
