

Community Readiness Strategies - Exercise 3

Look at the manual pages 26-28. Answer the following questions at your tables about the Wisconsin Coalition Against Domestic Violence (WCADV) Action Plan and prepare to report back to the group:

Which level of readiness does each of the 6 key actions best match?

Key Action	Level of Readiness
1. Replace some of the posters in the office from abuse in nature to ones that that promote healthy relationships	
2. The prevention staff of the organization asks permission from the Executive Director to host a "luncheon" at the next all day staff retreat to do a primary prevention exercise	
3. Plan prevention themed events where staff are invited to come to a meeting and discuss prevention readings 3 times per year	
4. Have a staff competitions to come up with a prevention logo or slogan for the office prevention material	
5. Examine non-prevention staff job descriptions and find prevention opportunities	
6. Have small group potlucks to talk about making prevention part of everybody's job	

If I were to tell you the level of readiness for this community is *vague awareness* how well does the above plan fit?

In what ways would recommend changing any strategy at a level that is too high?

ANSWER KEY - Community Readiness Strategies - Exercise 3

Look at the manual pages 26-28. Answer the following questions at your tables about the Wisconsin Coalition Against Domestic Violence (WCADV) Action Plan and prepare to report back to the group:

Which level of readiness does each of the 6 key actions best match?

Key Action	Level of Readiness
1. Replace some of the posters in the office from abuse in nature to ones that that promote healthy relationships	3
2. The prevention staff of the organization asks permission from the Executive Director to host a "luncheon" at the next all day staff retreat to do a primary prevention exercise	3
3. Plan prevention themed events where staff are invited to come to a meeting and discuss prevention readings 3 times per year	6
4. Have a staff competitions to come up with a prevention logo or slogan for the office prevention material	3
5. Examine non-prevention staff job descriptions and find prevention opportunities	6
6. Have small group potlucks to talk about making prevention part of everybody's job	3

If I were to tell you the level of readiness for this community is *vague awareness* how well do the above plan fit?

In what ways would recommend changing any strategy at a level that is too high?
