Introduction
The North Dakota State Legislature has provided funding since 1994 to establish loan repayment programs for physicians, nurse practitioners, physician assistants, certified nurse midwives, and dentists. In 2007, the legislature established a loan repayment program for veterinarians working in food animal medicine.

The 2015 Legislative Assembly created the Health Care Professional Student Loan Repayment Program in House Bill 1396 to provide loan repayments for physicians, advanced practice registered nurses (nurse anesthetists, nurse midwives, clinical nurse specialists, and nurse practitioners), physician assistants, clinical psychologists, and behavioral health care professionals (licensed addiction counselors, licensed professional counselors, licensed social workers, registered nurses, and psychiatric nurse specialists). House Bill 1396 also repealed chapters 43-12.2 and 43-17.2 of the North Dakota Century Code relating to previously enacted loan repayment programs for physicians, nurse practitioners, certified nurse midwives and physician assistants. Senate Bill 2205 revised the Dentists Loan Repayment Program.

The health professional loan repayment programs are administered by the North Dakota Department of Health Primary Care Office. The programs were created to increase the number of providers in the disciplines of medicine, nursing, physician assistant studies, and behavioral health, in areas of the state with defined health professional needs.

The dentist loan repayment policies and procedures are outlined below.
