## HACCP Plan Review Submittal Form

Hazard analysis critical control point (HACCP) is a preventive approach to food safety. It identifies food safety hazards in the food production process and designs measurements to reduce those hazards to a safe level. HACCP includes having a written plan that addresses identified critical control points (CCPs) where illness or injury is reasonably likely to occur in the absence of the hazard's control.

Submit the completed form and provide all documents relating to your establishment's HACCP plan to the North Dakota Department of Health, Division of Food and Lodging, by fax (701.328.1890), email ([djlarson@nd.gov](mailto:djlarson@nd.gov)), or U.S. mail (see above). If you have further questions, please contact us at: 701.328.1291.

## Reason for this HACCP plan submittal

Please check one of the following:

- New HACCP plan submittal
- Modification of existing HACCP plan

## Activity or food category

Please check one of the following:

- Cooking raw animal foods under the North Dakota Food Code, Chapter 33-33-04, Section 11, item 4 (d).
- Operating and maintaining molluscan shellfish tanks under the North Dakota Food Code, Chapter 33-33-04, Section 18.1, item 5.
- Removing tags or labels from shellstock under the North Dakota Food Code, Chapter 33-33-04, Section 3.5, item 2 (b).
- Reduced oxygen packaging (ROP) under the North Dakota Food Code, Chapter 33-33-04, Section 18.1 or 18.2. ROP methods include vacuum packaging, cook-chill, sous vide, modified atmosphere packaging (MAP), and controlled atmosphere packaging (CAP).
- Smoking or curing food, except for smoking done for the purpose of imparting flavor only and not as a part of the cooking process under the North Dakota Food Code, Chapter 33-33-04, Section 18.1.
- Using food additives or adding components, including vinegar, to preserve food rather than to enhance flavor, or to render the food so that it is not potentially hazardous under the North Dakota Food Code, Chapter 33-33-04, Section 18.1. (e.g., acidifying rice for sushi).

## Intended use and consumer

Please check one or more of the following to indicate how the product will be used.

- Ready-to-eat; served in the food establishment to consumers.
- Ready-to-eat; distributed to satellite location; served at satellite location to consumers.
- Ready-to-eat; packaged and sold in the food establishment for home use.
- Raw; served in the food establishment to consumers.
- Raw; distributed to satellite location; served at satellite location to consumers.
- Raw; packaged and sold in the food establishment for home use.

Other:

## Shelf life

For each storage method included in your HACCP plan, indicate the maximum time products will be stored.

Please type or paste here.

## Food flow diagram

Provide a written flow diagram for foods covered in this HACCP plan. You must identify process steps from receiving through service. You must identify the critical control points (CCPs) on the flow diagram.

Please draw, type or paste here.

## Hazard analysis

You may use the chart below to conduct and document your hazard analysis. Your HACCP plan must include CCPs for each identified hazard.

Establishment name:			Category and food products:		
Establishment address:			Intended use and consumer:		
			Date:		
Step from food flow diagram.	Identify potential biological (B), chemical(C), and physical (P) hazards introduced, controlled, or enhanced at this step.	Are any potential food safety hazards significant? (Yes/No)	Justification for decision.	What preventive measure(s) can be applied for the significant hazards?	Is this step a CCP? (Yes/No)

### HACCP plan form

Complete the chart below. Identify each CCP and describe: the critical limit; method and frequency for monitoring and controlling the CCP, method and frequency for person in charge (PIC) to verify that food employees are following standard operating procedures (SOPs) and monitoring CCPs, corrective action when critical limits are not met, and how records are maintained.

Establishment name:			Category and food products:

## **Standard operating procedures (SOPs)**

Include SOPs that describe how you conduct procedures specific to this HACCP activity. SOPs necessary for your HACCP activity may include: maintenance of specialized equipment (e.g. pH meter calibration, cleaning and sanitization of clean-in-place (CIP) equipment), and employee training (e.g. monitoring, corrective action, record-keeping procedures, and proper formulation of food additives).

Please type or paste here.

North Dakota Department of Health

[www.ndhealth.gov/FoodLodging/](http://www.ndhealth.gov/FoodLodging/)

---

## **Prerequisite programs**

Describe facility-wide considerations implemented in all phases of the food operation that allow you to have active managerial control over personal hygiene and cross-contamination. Include standard sanitation operating procedures (SSOPs) that address the following: how employees comply with ND Food Code Section 293.1 relating to contamination from hands, minimizing cross contamination, cleaning and sanitization procedures, restriction or exclusion of ill employees. Include a description of your training programs that ensure food safety in your operation.

Please type or paste here.

## **Record-keeping**

Attach all blank record-keeping forms your employees will use for the processes covered in this HACCP plan. You must have procedures to monitor all SOPs (e.g. daily thermometer accuracy log, pH meter calibration log). You must have procedures to monitor all CCPs (e.g. cooking, cooling, storage and corrective action log; product pH testing and corrective action log. Include verification for each record.
