RE: DVD – Immunization Techniques: Best Practices with Infants, Children,
and Adults

DATE: September 22, 2010

The North Dakota Department of Health (NDDoH) Immunization Program would like you to have a copy of the enclosed DVD, titled “Immunization Techniques: Best Practices with Infants, Children, and Adults.” All employees who administer vaccines at your practice should watch this short (25 minutes) training about how to properly administer vaccines. This is an excellent video for current staff and should be incorporated into the orientation of new staff.

Please feel free to contact the NDDoH Immunization Program with any questions or concerns at 701.328.3386 or toll-free at 800.472.2180.
